

Southwest Indiana Collaboration

Construction Conference 2020

Day 3 – Indiana Transportation Team 360 Meeting

Rusty's Notes

- Welcome!
- Number of people here >> 105
- Show of hands...How many here attended the December 6th End of Season Meeting at USI?
- Show of hands...How many of you have interacted with people with whom you've never interacted with before as a result of these meetings?
- I AM...
- We started this journey as an industry, recognizing that we won't succeed in delivering the growing programs of the future by doing things the way we've always done them...recognizing that process improvements and relationships built on common goals and trust are critical
- Anyone that has been around me very much knows that I am a John Maxwell fan. I want to share a short video from Minute with Maxwell
 - <https://johnmaxwellteam.com/2020-earning-trust/>
 - Isn't that what we are doing? Coming together to...Align words and behavior...and to value people
- Today will mark another milestone as we summarize the journey to date, define today's breakouts and expected outcomes, hear an update from the state-wide ITT perspective, and then look ahead
- We very much appreciate your engagement. Make sure you meet some new folks today - learn something about someone, and share something about yourself
- Let's have a fun and productive day!
