

Southwest Indiana Collaboration

Mark Your Calendars!

We are pleased to invite you to the 2022 End of Season Collaboration on December 2, 2022. Another unique day is being planned! We will have an interactive utility panel discussion – with representatives from all 3 legs of the stool, and breakout sessions to follow. The outcomes will define our utility focus and deliverables for 2023. We will also introduce the SW ITT Young Professionals' Program, and the inaugural run for 2023.

This event will be a great opportunity to engage on a host of topics – to voice opinions, to share ideas, to ask questions, to learn perspectives...to grow as industry partners. We look forward to continuing our collaboration, developing relationships, and building trust!

We hope you will join us!

Vincennes University Jasper Campus
